

SD-10 spectrophotometer

A portable colour measurement device that is accurate, easy to use and conveniently portable.

Its compact size makes it easy to carry, and its embedded battery allows you to take measurements virtually anywhere, anytime. Thanks to the built in Bluetooth® connectivity, the Epson Spectrometer mobile app¹, and workflow integration, the SD-10 can help you elevate your colour capabilities.

The SD-10 allows for easy integration with Epson Edge Print, directly measuring and replacing colours within the print workflow; connect via Bluetooth or USB.

You can build colour libraries by using the mobile app to create colour palettes, find similar pantone colours and record measurements. SD-10 gives you colour confidence, by using the mobile app to identify whether your Epson printer, media and ICC profile can reproduce a measured colour.

SD-10 (ECSP) B41CK17301B0 additionally comes with an alignment guide B42B900201 and cover B42B900101 as well as a five-year warranty.

Colour management solution from Epson

Create media profile profiles quickly and easily with Epson's SD-10 Spectrophotometer together with the SD-10 Automated Scanning Table and Epson Edge Color Lite software as well as colour matching and verification for Epson printers.²

The SD-10 spectrophotometer plus SD-10 Automated Scanning Table is a great entry level, fast and portable colour management solution that supports media up to 13mm as standard; the scanning table accommodates media up to A3 size for speed and convenience.

The combined solution of SD-10, SD-Automated Scanning table and Epson Edge Color Lite can create a profile by scanning 379 patches in only 5 minutes. The SD-10 Automated Scanning Table is supplied in a carrying case for easy transport and storage, which includes a storage pocket for an SD-10.

KEY FEATURES

- **Full-featured spectrophotometer**
Accurate, quick and portable
- **Easy-to-use, portable design**
Compact size makes it easy to carry
- **Standalone operation**
Built-in LCD display lets you view colour measurements quickly
- **Wireless Bluetooth connectivity**
Connect mobile devices or computers using Bluetooth technology
- **Epson Spectrometer mobile app¹**
App allows for streamlined collaboration and improved workflow
